

# 'Haven 8' in Waalwijk

## the location for carefree logistics

A great opportunity for building your new distribution center

In 2020, the new port terminal in 'Haven 8' will open in centrally located Waalwijk in the Netherlands. The ideal connection to the ports of Rotterdam and Antwerp for the European market. 'Haven 8' is an industrial area with plenty of opportunities for distribution centers and companies with high logistical requirements.

In this area ROC Waalwijk covers all logistical services linked to the transportation of your shipping containers with a ultra-modern, fully equipped inland terminal.

# Do you want to serve the European market **quick and efficient?**

- Current container terminal already services the area
- A totally new terminal will be operational in the course of 2020 with three times as much capacity:
  - 300 meters quay length
  - Class V accessibility, +6 meter draft
  - Over 100.000 teu throughput capacity and +1500 teu storage
- Daily sailings to and from Rotterdam
  - Currently 15 sailings per week
  - Intended bus service in collaboration with other terminals to increase service
- 24/7 trucking services from and to Rotterdam and Antwerp
- Handling and storage of dangerous goods (tank and dry van)
- Handling of oversized and non-containerized cargo
- Bonded container storage and customs services
- Reefer-stack
- De-fumigation and gas-measurement
- Unloading, storage and follow-up transport
- Additional services in co-operation with other Van der Linden companies.

Centrally located in Waalwijk,  
the Netherlands, Europe.
